Into the future with a young and experienced team at Quintessence Publishing, Berlin Retirement of Publishing Director, Johannes Wolters

In December 2018, our longstanding Publishing Director, Johannes Wolters, retired.

"Our sincere thanks go to Johannes Wolters for the close, trusting, and successful cooperation over this long period," says Managing Director, Christian W. Haase.

And so, in its 70th anniversary year, Quintessence Publishing headquarters in Berlin is busily preparing for the future with a young but experienced team. The manifold tasks of Mr Wolters, mastered outstandingly over the past 20 years, have been spread over several capable shoulders.

Since January 2019, Anita Hattenbach has been responsible for the Book Division and Dr. Marina Rothenbücher for the Journals Division at Quintessence Berlin. Both have already been successfully active in these areas for many years and are part of a management team that looks after the various areas of the internationally active publishing house. Markus Queitsch joined the company as Head of Media Sales in August 2017, while Melanie Stodtmeister has been Head of Sales and Marketing since January 2018. The Congress Department is headed by Saskia Lehmkühler, Änne Kappeler is responsible for Digital Media, and Ina Steinbrück for Production. Since 2018, Dr. Marion Marschall has been in charge of Quintessence News, the publisher's new online information portal, and Dr. Fabian Langenbach, who as Head of Knowledge Management and Digital Strategies, is now also responsible for the subject of 'Artificial Intelligence in Dentistry' at the publisher.

The management of Quintessence Publishing therefore sees the publishing house, in its 70th year of existence, as being well positioned for the future. Many new projects have already been implemented; others are in preparation. And in time for this auspicious anniversary, some of the most important specialized journal titles have received a new-look cover and design.
