With a new, contemporary layout and design, QI continues its decades-long tradition of providing general practitioners with clinically relevant, scientifically based, current contributions from all important areas of dentistry. Dr Eli Eliav and his editorial board are dedicated to practitioners worldwide through the presentation of high-level research, useful clinical procedures, and educational short case reports. Rigorous but timely manuscript review is the first order of business in their quest to publish a high-quality selection of articles in the multiple specialties and disciplines that encompass dentistry.
