## Buch-Information

**Hrsg.:** Francischone, Carlos E.  
**Titel:** Osseointegration and Multidisciplinary Treatment

### Kurztext:

The functional consequences of tooth loss require clinicians to fabricate restorations that take into consideration individual anatomic situations as well as the psychological aspects of the patients. This comprehensive text details the role of osseointegration in prosthodontic restoration via careful treatment planning and the use of a multidisciplinary therapeutic approach. Open communication between the patient and treatment team ensures that every stage of treatment is in concert with the patient's desires. From detailed clinical and radiographic examination to soft tissue considerations to selection of implant systems and surgical techniques, this book outlines well-documented modalities that are safe, simple, and predictable.

contents:

Chapter 01. Introduction-Carlos Eduardo Francischone

Chapter 02. Provisional/Transitional Restorations in Osseointegration-Carlos Eduardo Francischone, Renato Savi de Carvalho

Chapter 03. Can Different Implant Systems Influence the Quality of Peri-implant Oral Microflora?-Daniella Andaluza Dias Matos

Chapter 04. Soft Tissue Management and Smile Esthetics-Glécio Vaz de Campos

Chapter 05. When to Replace Teeth by Implants-Reinaldo dos Reis Pereira Janson, Ziad Jaboult, Euloir Passanezzi, Adrianna Campos P. Sant'Ana

Chapter 06. Treatment Planning and Procedures to Adequate Implant Positioning Toward Esthetics and Function-Luis Guillermo Peredo-Paz, Marcos dos Reis Pereira Janson

Chapter 07. The Use of Intraoral Donor Sites on Alveolar Osseous Reconstruction-Helcio Ganda Lira, Hugo nary Filho, Mariza Akemi Matsumoto

Chapter 08. Loading or Immediate Function on Osseointegrated Implants-Carlos Eduardo Francischone Jr, Ricardo Falcão Tuler, José Antonio de Siqueira Laurenti

Chapter 09. Autogenous Bone Grafts on Implantology-Laércio W. Vasconcelos, Gustavo Petrilli, Laura P. G. Paleckis

Chapter 10. Fundamentals of Zygomatic Implants as a Surgical Alternative in the Treatment of Atrophic Maxillae-Luis Rogério Duarte, Hugo Nary Filho

Chapter 11. Soft Tissue Management on Implantology-José Bernardes das Neves

Chapter 12. Reconstruction of Craniofacial Function Using Osseointegrated Implants in Patients with Mandibular Defects-Maria B. Papageorge, Robert J. Chapman

Chapter 13. Oral Fixed Rehabilitation of Atrophic Jaws-Paulo Malo, Isabel Lopes, Raul Costa

Chapter 14. Surgical Techniques for Zygomatic Implant Placement in Atrophied Maxillary Arches-Reginaldo Mario Migliorança, Gisseli Bertozzi Ávila, Marcelo de Sá Zamperlini, Thiago Martins de Mayo

Chapter 15. Francischone's Classification for Implant Protheses-Carlos Eduardo Francischone, Renato Savi de Carvalho, Carlos Eduardo Francischone Jr

**Fachgebiet(e):** Implantologie, Mund-Kiefer-Gesichtschirurgie, Oralchirurgie, Parodontologie, Prothetik
