Buch-Information

Autor(en): Kane, Michael / Sattler, Gerhard
Titel: Illustrated Guide to Aesthetic Botulinumtoxin Injections
Untertitel: Basics | Localization | Uses
Reihe: Aesthetic Methods for Skin Rejuvenation

Kurztext:

A new title in the »Aesthetic Methods for Skin Rejuvenation Series«. Written by internationally renowned specialists, Michael Kane and Gerhard Sattler, this book is a practical, unique, step-by-step guide to aesthetic procedural techniques using botulinum toxin A injections.

With the help of 260 outstanding didactic photos and anatomical graphics, the book describes each facial procedure in terms of patient examination, the topography of the muscles and the treatment. The reader can further access invaluable and practical argumentation video sequences online via the QR codes contained in the book. Authentic case histories for procedures on the forehead, glabella, brow, lower eyelid, bunny lines, marionette lines, nasolabial folds, cheeks, gummy smile, upper and lower lip, chin, neckline and décolletage are supported with photographic documentation. Practical tips, pitfalls and checklists are also included.

Contents

1. The active substance botulinum toxin A
2. Documentation and organization
3. The examination
4. The treatment
5. Regional treatments
6. Case histories
7. Practical aids for the practitioner
